EXPERIENCE

International Fire Protection, Austell GA — *NICET III Fire Inspector*

2015 - 2019, 2020-2021

Accomplishments include completing on the job training and NICET certifications. (Equivalent to a 4 year degree.) This involved having at least 5 years experience, passing qualifying certification testing, and being evaluated by my peers. Responsibilities included inspecting, testing, and maintaining fire protection systems at commercial facilities ranging from department stores to power plants and hospitals. This position required that I was able to manage large jobs, memorize code standards, take on the liability of inspecting fire protection systems, and record all the data clearly and thoroughly in an inspection report. Customer relations were key. Part of my responsibilities included sales of accounts as well. My star accomplishment was managing and inspecting the Georgia Power Plant Bowen account.

International Fire Protection, Austell GA — *Estimator/Project Manager*

2021-2022

Accomplishments of this position were taking a backlog of approximately 800 jobs and reducing them down to under 100, as well as selling around 1.7 million dollars worth of work in the course of a year. Expectations were to sell and project manage around 100,000 dollars a month in repair work. The month of my departure I had pushed that average to 200,000 and even managed to sell 400,000 one month. Responsibilities included receiving inspection reports, estimating the price of repairs needed to get the fire protection systems up to code, and selling that to the customer. Upon the sale, I was expected to schedule the job, order parts, communicate the needs to our team and deploy a technician to the site. Upon completion, I was required to bill the job and collect payment. I was trusted with helping to manage a team of approximately 10 technicians. My start accomplishment was selling around 400,000 dollars worth of work in my last month of employment.

SKILLS

NICET III Certification in Inspection, Testing, and Maintaining Water Based Fire protection systems. (Equivalent to a bachelor's degree)

Ordained minister (non-denominational)

Public speaking

Small Business Experience

Management Experience

Leadership skills

Python (somewhat familiar)

REACT

Bootstrap

MONGODB

MERN Stack

Fire and Life Safety America, Norcross GA — *NICET III Fire Inspector*

2019-2020

Accomplishments include managing several hospital systems, most notably Emory Midtown Hospitals and Grady Hospitals. Responsibilities included inspecting, testing, and maintaining fire protection systems at commercial facilities ranging from apartment complexes to hospitals. This position required that I was able to manage large jobs, memorize code standards, take on the liability of inspecting fire protection systems, and record all the data clearly and thoroughly in an inspection report. Customer relations were key. My star accomplishment was managing and inspecting the Grady account.

Grace City Church, Temple GA — *Youth Pastor, Elder*

2016-Present

Accomplishments include managing a team of around 10-15 adults to lead a mentorship style structure in our youth group, as well as spiritually lead a congregation of approximately 100-150 people. I currently co-pastor a house church within a larger house church collective. Responsibilities include spiritually leading a congregation on a weekly basis, mentoring adults and teenagers, making important financial decisions on behalf of the church, preparing and delivering sermons, and speaking publicly often. My star accomplishment was mentoring a group of young teens over the course of several years and watching them grow into leaders themselves.

JR Hanson Homes, Villa Rica Ga, Small Business Owner

2016-Present

I currently run a small business with my wife running long term and short term rentals (Airbnbs.) Accomplishments include working alongside my wife to open and manage three separate rental properties that we currently own. Challenges included learning the basics of small business ownership, project managing and budgeting for the opening of our airbnb properties, and opening an LLC. Our star accomplishment was opening our first airbnb located in blue ridge, GA in January of this year.

EDUCATION

NICET III- Certification

2015-2022

License number IL0000915. This is equivalent to a 4 year degree. Requirements for level I were at least a year of experience in the field,the

passing of three exams testing on knowledge of the code, and a peer review of 3 people in the industry. Requirements of level II were at least 2 years of experience in the field, the passing of three additional exams testing on knowledge of the code, and a peer review of 3 people in the industry. Requirements of level III were at least 5 years of experience in the field, the passing of two additional exams testing on knowledge of the code and peer review of 3 people in the industry. The state of Georgia required that I complete continuing education every year to keep my license up to date.

Other Fire Protection Related Certifications- Fire Extinguisher License, Backflow Prevention License, Pre-engineered kitchen hood license, Pre-engineered industrial hood license

I am a current student in the full stack web development course hosted by Georgia Tech. We are currently learning the MERN full stack, as well as the principles of Agile software development. Graduation date is March 13, 2023.

PROJECTS

Link to github repo-

https://github.com/joemeetjoe

Please see my personal github repo link. I have been learning the basics of vanilla Javascript, CSS, and HTML for frontend development. I have also learned bootstrap, Node.js, and am moving into more of the backend portion of web development. All of these projects were made for my class and were performed under an extreme time crunch with tight deadlines. Each project shows my progression in knowledge as a web developer.
